

COMMENDATION OF PORT STATE CONTROL PERFORMANCE

July 2023

CAPITAL-EXECUTIVE SHIP MANAGEMENT CORP.

Dear Owner/Operator,

The Liberian Registry commends you and the crew of the following vessels, listed in the attached appendix, of your fleet for the safe operation of the vessel(s) over the past two (2) years without any IMO Detentions by Port State Control.

This stellar safety and performance record is in keeping with the highest of maritime traditions. This Registry greatly appreciates the dedication to safety and compliance of your team and your seafarers.

Sincerely,

Alfonso Castillero
Chief Executive Officer

Liberia Retains United States Coast Guard QUALSHIP 21 Status

The Liberian Registry has continued its QUALSHIP 21 (QS21) status with the United States Coast Guard (USCG) for the second consecutive year. QS21 recognizes vessels and flag States which have successfully met specified safety, regulatory, and quality requirements when calling ports in the United States (US)

The QS21 program is a quality recognition program to which only a small percentage of vessels calling at US ports are admitted based on the excellence of their port state control record. The USCG developed QS21 to provide recognition for well-run, quality vessels, operators, and registries.

“A quality vessel is associated with a well-run company, is classed by an organization with a quality track record, is registered with an Administration with a superior Port State Control record, and has an outstanding Port State Control history in US waters.”

As a benefit of Liberia being a qualified Flag Administration, operators may begin to apply for the QS21 program.

Applications should be sent to the US Coast Guard Office of Commercial Vessel Compliance. Details on the format and content of the application can be found at the USCG QUALSHIP21 webpage.

Please contact the Fleet Performance Department at prevention@liscr.com if you have any questions about or need assistance with the USCG QS 21 program or application process.
